LESSON 6.1.12 | WATCH | Key Ideas — Factual

Think about the following questions as you watch the video.

1. What actions led to what is called agriculture’s Golden Age?

2. In what measures did cities grow in a 40 year span around the turn of the 20th Century?

3. More than increased food production, improvements in nutrition, and increased birth rates, what is the biggest contribution to the growth of American cities?

4. What sort of persecution and prejudice were Eastern European immigrants subjected to?

5. What sort of persecution did Chinese immigrants face?

6. Was immigration strictly limited to America during during this era?
7. What part of New York City became a magnet for immigrants arriving into the country?

8. What were conditions like in cities?

LESSON 6.1.12 | WATCH | Conceptual Thinking

Answer the following question to make connections across different concepts and think more critically about the information presented in the video.

1. Why is this era of study, more than any other thus far studied, perhaps the foundation for a modern industrial America that we live in today?
